

ROAD BUILDING

PLAN FOR FOREST HIGHWAYS

Secretary Wallace Approves Program Involving Outlay of Approximately \$10,000,000.

(Prepared by the United States Department of Agriculture.)

A program of national forest highway construction involving an outlay of approximately \$10,000,000 for 1,170 miles of road in 23 states has been approved by Secretary of Agriculture Wallace. This program will be financed largely from the forest highway fund provided by the federal highway act. About \$5,000,000 will come from this source, \$2,500,000 from other national forest road appropriations, and the balance of \$2,500,000 will be contributed by states and counties.

The work provided for is as follows:

States	Proposed Expenditure	Miles
Alabama	3,362	15
Alaska	86,850	86
Arizona	1,011,500	135
Arkansas	142,796	24
California	1,346,197	50
Colorado	827,000	106
Florida	91,175	14
Idaho	1,209,990	137
Montana	566,421	75
Nebraska	9,563	2
Nevada	106,000	23
New Hampshire	29,388	4
New Mexico	452,000	64
Oklahoma	4,072	3
Oregon	2,370,000	210
South Carolina	2,173	1
South Dakota	61,000	7
Tennessee	15,000	1
Utah	292,400	29
Virginia	30,000	4
Washington	780,000	50
West Virginia	4,901	2
Wyoming	200,150	9
	\$10,232,634	1,470

The funds and mileage are for forest roads of primary importance to states, counties, and communities. The program was recommended to the secretary by the forest service and the bureau of public roads, jointly, after conference with state officials. The bu-

An Improved Road in Bear Creek Canyon in Colorado.

reau of public roads will supervise the construction work, and it is expected that a large number of the projects will be completed this season.

Practically all the roads to be built are parts of the state or county highway systems and will therefore in most cases connect with and extend the system of federal aid highways covering the whole country. In some cases the new construction will provide roads through mountainous regions of the national forests hitherto penetrated only by pack trails.

In addition to the major road projects, about \$5,000,000 will be expended by the forest service on minor roads and trails required primarily for the protection and administration of the national forests.

NIGHT TRAVEL WEARS ROADS

More Destructive to Highways Than in Daylight, According to Recent Experiments.

The experiments being conducted on the Bates experimental road, show that night travel is more wearing on highways than is day travel, according to Clifford Older, chief highway engineer.

The road expands in the day, according to Mr. Older, and the center becomes convex. The heat is absent at night, and the road assumes a concave shape, the edges curling up and forming a slight hollow in the center. From these discoveries it is deduced that heavily loaded vehicles traveling along on the edge of a roadway have a tendency to cause it to crumble.

The testing of the Bates road was begun late in March and is still under way. It was delayed for a time by the floods.

Boom for Good Roads.

A road program that will place Kansas among the leading road building states of the nation was urged by E. J. Heckle of Topeka, manager of the Kansas Automobile Owners' association, in an address to the state conference of officials of chambers of commerce.

Tennessee Road Work.

Tennessee has inaugurated a federal aid road-building program involving the expenditure of \$8,000,000 for 221 miles of roads in 20 counties.

MANY FOLKS OVER FORTY DIE AS RESULT OF CANCER

Symptoms That Should Cause One To Seek Doctor Given

This is National Cancer Week, during which an effort is being made all over the United States to properly acquaint the public with the danger of cancer, its symptoms, cure, etc. The figures show that one out of ten people past the age of forty die of cancer.

The News prints herewith a very interesting and helpful pamphlet concerning cancer, to which the readers' attention is cordially invited.

1. During the Great War in United States lost about 80,000 soldiers. During the same two years 180,000 people died of cancer in this country. Cancer is now killing one out of every ten persons over forty years of age.

2. Many of these deaths are preventable, since cancer is frequently curable, if recognized and properly treated in its early stages.

3. Cancer begins as a small local growth which can often be entirely removed by competent surgical treatment, or, in certain external forms, by using radium, X-ray or other methods.

4. Cancer is not a constitutional or "blood" disease; there should be no thought of disgrace or of "hereditary taint" about it.

5. Cancer is not a communicable disease. It is not possible to "catch" cancer from one who has it.

6. Cancer is not inherited. It is not certain even that a tendency to the disease is inherited. Cancer is so frequent that simply by the law of chance there may be many cases in some families, and this gives rise to much needless worry about inheriting the disease.

7. The beginning of cancer is usually painless; for this reason its insidious onset is frequently overlooked, and is too easily neglected. Other danger signals must be recognized and competent medical advice obtained at once.

8. Every persisting lump in the breast is a warning sign. All such lumps are by no means cancer, but even innocent tumors of the breast may turn into cancer if neglected.

9. In women continued usual discharge or bleeding requires the immediate advice of a competent doctor. The normal change of life is not accompanied by increasing flowing which is always suspicious. The return of flowing after it has once stopped should also be considered suspicious. In men any reddish color in the urine is very suspicious of cancer in the bladder or kidney; though it is also seen sometimes with stone of the bladder or kidney. Do not expect the doctor to tell you what the matter is without making a careful physical examination.

10. Any sore that does not heal particularly about the mouth, lips or tongue, is a danger signal. Picking and irritating such sores, cracks, ulcerations, etc., or treating these skin conditions by home remedies, pastes, poultices, caustics, etc., is playing with fire. Warty growths, moles of other blemishes, especially those subject to constant irritation, should be attended to immediately if they change in color or appearance, or start to grow. Avoidance of chronic irritation and removal of just such seemingly insignificant danger spots may prevent cancer.

11. Persistent indigestion in middle life, with loss of weight and change of color, or with pain, vomiting, or diarrhea, call for thorough and competent medical advice as to the possibility of internal cancer.

12. Radium is a useful and promising means of treatment for some kinds of cancer, in the hands of the few skillful surgeons and hospitals possessing sufficient quantity of this rare and very expensive substance; it must not be thought of as a cure-all for every form of cancer. No medicine will cure cancer. Doctors and institutes which advertise "cures with out the knife" play upon the patient's fear of operation in a way that leads too often to the loss of precious time, and fatal delay in seeking competent treatment. Go first to your family physician.

FREAK PIG HAS TWO TAILS EIGHT LEGS AND ONE HEAD

C. A. Woodward of this city is exhibiting one of the most peculiar freaks of nature ever seen in this country in the shape of a new born pig, with eight legs, two tails and one head. The pig was the last of eight born to one of his pure-bred sows last week, and was dead when born.

It seems as though nature started to make two pigs and then changed her mind when half finished and tried to finish the job in one pig. Viewed from the tail end there are two hind quarters, with perfectly developed hind legs and tails. Half way up toward the middle the two bodies become one body on the back or top side and end in one head, apparently a normal pig's head, but on the under side the two separate bodies continue almost up to the neck and there are two perfectly formed sets of four legs.

Mr. Woodward has had the freak preserved in a jar of denatured alcohol and will have it placed on exhibition.

BASKET BALL PROSPECTS ARE LOOKING BRIGHT

Now that the end of football season is nearing an end attention is beginning to be directed toward basketball. A survey of the material S. T. C. shows that there is an abundance here from which coach Hatley may choose to form a formidable team. An enviable record has been made by the football team under Coach Bell, a record that will tax every effort of the basketball team to equal. The boys and the Coach however are determined, and they say that they will end their season with an all victorious team.

BOCHITO NEGRO GIVEN WHIPPING BY FIVE BOYS

Had Offered Insult To White Girl And Was Quickly Punished

William Daney, an 18-year-old negro boy living three miles northwest of Bokchito paid quick penalty Wednesday night of last week for an insult offered a young white woman about 5:30 o'clock the same afternoon, when five young neighbor men held the negro across a log and whipped him until they tired, and then compelled the negro's father to finish the job with a hickory stick. The probability is that young Daney, who is known and regarded as an insolent negro, will keep his place hereafter.

Miss Alvarice Wiley, aged 18, was returning home from school, according to reports reaching this paper, riding horseback. Her home is three miles north and a half mile west of Bokchito. When about 150 yards from her home, she met a wagon coming toward her driven by William Daney and accompanied by a smaller negro boy. She turned out to give part of the road, and was almost against a barbed wire fence. The negro at that time she says with a laugh deliberately turned his team to the left, crowding her horse against the fence, tearing her skirt nearly off, inflicting several cuts on her right leg, and the left hind wheel of the wagon, caught her foot and stirrup and dragged her from her horse to the ground when she sustained several slight bruises. With a laugh, the negro drove on, the girl says. The Sunday before this, Miss Wiley and other girls were coming from church, it is said, when the same negro passing them in the road, cursed them.

Directly the news of the happening was circulated, several young men of the neighborhood, got on horses and in cars and went hunting for the negro. In an hour they caught him, when they held him across a black jack log, when two of them took turns whipping him with a tie rope until they tired, when they forced his father to finish the job with a hickory stick, and reports say that the aged negro did a splendid job of chastising his own son.

After the punishment had been administered, the posse quietly disbanded.

The girl's father, G. W. Wiley runs a restaurant in Bokchito, and when his wife phoned him to come home, he was greatly excited thinking that serious harm had befallen his daughter, and excitement ran pretty high in the town for a while, until the whole facts were made known.

HARDING CALLS A SPECIAL SPECIAL SESSION NOV. 20th

President Harding last week issued a formal proclamation for an extraordinary session of the national congress to convene on Monday, November 20th.

The call did not specify what legislation the President wishes considered.

It is expected that the message setting forth the matters upon which consideration is desired, and which will be delivered to congress when it convenes will include the following:

Getting a start on appropriation bill for next year.

Consideration of the administration's ship subsidy bill.

Reorganization of governmental departments.

Legislation defining more definitely the powers of the Railroad Labor Board.

A writer on fashions says there is no good reason why girls should continue to wear short skirts. Lots of the girls, however, seem to feel that they have two very good reasons.

LEGAL NOTICES

1st insertion Nov. 17, 1922
4th insertion Dec. 8, 1922.

NOTICE OF TAX DEED

STATE OF OKLAHOMA, COUNTY OF BRYAN, ss.

Notice is hereby given that the undersigned T. C. Martin did on the 5th day of November, A. D. 1920 at the County Treasurer's office in the City of Durant, said County and State, purchase at public auction the following described lot, parcel or tract of land, situated in Bryan County and State of Oklahoma, to-wit:

Lot 5, Block 2, Fairview Heights Addition to Durant, Okla., for the sum of One and 09/100 Dollars for the taxes due on said property for the year 1919, upon the payment of which the said County Treasurer issued a certificate of purchase for said described property, the same being Certificate No. 12; that the title to said property is vested in unknown, who is a non-resident of the State or County upon whom personal service cannot be had, as shown by notice placed in the hands of the sheriff and his return thereon.

Now, therefore, the said unknown, owner, and unknown occupant thereof, will take notice that if the said certificate of purchase, held by the undersigned, for the taxes on the above described lot, tract or parcel of land, is not redeemed within sixty (60) days from the date of the publication hereof, the holder of said certificate will demand from the County Treasurer of said County and State a deed for said property, to issue according to law.

T. C. MARTIN, Holder of Certificate No. 12, covering Lot 5, Block 2, Fairview Heights Addition to Durant, Oklahoma.
